| June  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| July  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Aug.  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Sept. |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Oct.  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Nov.  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Dec.  |                 |   |   |   |   |   |   |   |   |    |    |    |    |    |    |                                      |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |

My initials in the box above indicate that I have inspected AGST tanks and systems in accordance with State Regulation 22 CCR 66265.195(a) and Federal Regulations 40 CFR 112. Inspection included items as follows:

- Labeling (for contents and hazards)
- Overfill control equipment is in good working order
- Spill control equipment (absorbents)
- Visible portions of tank and surrounding area for corrosion, structural failure, or release of hazardous material. 22CCR 66265.194 requires Tank Assessment from PE for structural integrity for all post 1992 systems
- Information from leak detection equipment to ensure system is working satisfactorily.
